## STCW10 REFRESHER TRAINING COURSES

**HOTA is introducing STCW Refresher Training following “the Manila amendments to the STCW Convention and Code.”**

In June 2010 significant changes were agreed at an IMO (International Maritime Organisation), Diplomatic Conference in Manila to the STCW (Standards of Training, Certification and Watchkeeping for seafarers) Convention and Code in order to ensure that necessary global standards are in place.

By the stated deadline of 1<sup>st</sup> January 2017 the requirement for refresher training will be implemented. This means that those Maritime personnel with certificates taken more than 5 years prior to the stated deadline **must** comply with STCW10 requirements and have completed the refresher training before 1<sup>st</sup> January 2017. Those who have taken a basic STCW Course or refresher after 2012 will be required to refresh 5 years after their certificate issue date.

HOTA will be introducing the following statutory courses concerning the safety and survival of crew and passengers, these courses will require refresher training every five years under the new STCW Convention and Code:

- 1 DAY CERTIFICATE OF UPDATED PROFICIENCY
